

## Software Developer

- International Brand
- Market Leader
- Inner East Location

We are a leading International Retail brand that has grown its business over three decades. We are a market leader in providing software solutions with basic efficiencies, but deliver retailers the power to better understand their business, their customers and their future.

An exciting opportunity exists for a SOFTWARE DEVELOPER to join a small dynamic team who is highly motivated with a keen desire to learn and grow with the company. Reporting to the Development Team Leader, the successful applicant will be providing technical solutions, designs and implementations for new and ongoing software projects.
